

The District and Club database—Is Ready for YOU!

7 Ways to Improve your Communications with your District Leadership and Club Members

To sign into *your district's database*, just "click" on **your** district number (i.e. 7710) in navigation area on the *left* side of this screen.

The District and Club database now has something for *everyone*: **Members, Clubs, and District Officers!**

Members are encouraged to [sign-on](#) and update their own data (name, address, phone, [e-mail](#), business data, their [photo](#) and spouse's information). And, members can view (or print) their [club's membership directory](#) (w/ member photos) in just a couple of clicks.

Club secretaries are able to [submit their attendance data](#), update their [club's location and meeting times](#), maintain their [membership roster](#) (new members, changes, and terminations), and [print name badges](#) or [club directories \(with member photos\)](#), or [e-mail ALL members](#) in your club, in just a couple of clicks. And print a Rotary Foundation *transmittal report* for your annual giving and sustaining member contributions. In addition, [clubs can publish their meetings, events, and fund raisers in the on-line calendar](#), with district-wide distribution. And finally, a new function that sends *personalized, individually addressed e-mails*, to every member in just 2 clicks. These *personalized* e-mails results in "higher response" rate to your messages.

In addition, clubs can now get their *own* web site and www.domain-name.org for easier communications with their members and others, using many of the database transactions to KEEP your web site current!!! These web sites come in 2 flavors: standard and custom. For an example of a *standard* web site, please visit: www.OxfordRotary.org -or- for a *customized* web site, please visit: www.WarrentonRotary.org

We can assist your club in getting either of these web sites established, along with registering **your club's domain name**. Just send us an [e-mail](#) .

So, if you want MORE "information" about the "District and Club Database", just give us a call (or send us an e-mail .
